Profile Summary

Experienced software engineer with 13+ years in designing and developing web-based applications. Highly committed, result-oriented, and eager to learn new technologies, with a passion for tackling challenging tasks. Seeking opportunities in dynamic environments to leverage my skills, contribute meaningfully, and grow as a key player in innovative and fast-paced teams.

Key Deliverables

- Expertise in Integration of different Web Services.
- Taken ownership of many frontend modules & suggested solution for UX changes.
- Taken ownership of many Backend modules.
- Supported for analyzing various customer queries on time.

Professional Experience

Wissen Infotech, Bangalore | UI Developer

 Aug 2022 – Jul 2024

Key Result Areas:

- As a UI Developer, I worked with **Schneider Electric** and on Wissen's internal products. For the client, I integrated support and campaign modules into their existing e-commerce exchange platform using *Angular and Stencil*. Internally, I contributed to various projects, including building *D3 graphs* in an Angular library, creating *Babylon.js 3D models* for product display, developing a recruitment portal, and merging duplicate contacts in a banking application to generate reports using *React JS and TypeScript*.

Appiness Interactive, Bangalore | UI Developer

 May 2020 – Aug 2022

Key Result Areas:

- As a UI Developer at **Huawei Technology**, I designed a Power BI-like dashboard using the open-source Trac Tool for multiple global regions. I used *Vue2 and Echart* to integrate JSON services, enabling dynamic graph/widget generation with add, modify, and delete, duplicate, resize, re-order, copy to other dashboard-region functionalities.

Edkal Technologies, Bangalore | Full Stack Developer

 May 2018 – Mar 2020

Key Result Areas:

- As a full stack developer, I worked on developing and integrating internal eCommerce and ERP products, focusing on building promotion modules and designing responsive UI for both mobile and web platforms using *PHP-Laravel, Angular 6, Ionic and Bootstrap 3*.

Refund.me India Services, Delhi | Full Stack Developer

 May 2016 – May 2017

Key Result Areas:

- As a full stack developer, I worked on two products: the Claim-Processing-B2B Tool and Yellow-Ribbon Service. These tools allowed clients to claim compensation for past defective flight tickets in compliance with EU and Indian regulations. I used *PHP CodeIgniter, Bootstrap, and jQuery* to develop/design both UI and backend modules.

Provab Technosoft, Bangalore | Full Stack Developer

 Jul 2013 – Apr 2016

Key Result Areas:

- As a full stack developer, I developed travel portals and integrated APIs from various hotel, flight, and transfer providers. I worked on both frontend and backend implementations using *HMVC PHP, MySQL, AngularJS, and Bootstrap*, while also ensuring responsive UI.

Propellogic IT Solution, Bangalore | Web Developer

 May 2011 – Jun 2013

Key Result Areas:

- As a web developer, I worked on e-commerce products such as Custom-Hotel-Reservations, Sahiprice, iGifts, and BullsOrbit, utilizing PHP, MySQL, jQuery, and HTML. I independently handled all aspects of these projects.
